

Company, Job Board, Recruiter & Community Data (2025-2026)

This file collects **structured evidence** rather than a final strategy.

The tables below compile examples of companies, job boards, recruiters and communities relevant to a real-time 3D/Unity technical-visualization developer based in Colombia (native Spanish, C1 English) who plans to work remotely and eventually secure EU work rights via a Portuguese passport or German marriage route.

For each entry, only publicly available information is used; when information was not found, the cell is marked "*not found*".

Sources are given at the bottom.
